

I STRONGLY urge you to reject NAB's petition 04-160 regarding XM radio. The weather information alone warrants it's usage. I am also interested in getting the local traveling information and I enjoy listening to Satellite radio without constant commercials that appear on regular radio. It's about time that us little people have a say into what we want to hear or listen to. The big networks are making more money now than they ever have and the word GREED sticks out as the only reason they want XM interferred with. My wife and I are elderly and this gives us a chance to listen to good quiet music when traveling but the weather information that it gives is invaluable.

I URGED YOU TO STOP THESE NAB PEOPLE FROM INTERFERRING WITH MY RIGHTS TO LISTEN TO WHAT I WANT TO.

Thank you.
